

REMARKS

This application has been reviewed in light of the Final Rejection mailed January 21, 2010, and subsequent Advisory Action dated May 7, 2010. Reconsideration of this application in view of the below remarks is respectfully requested. Claims 1, 2 and 5 – 18 are pending in the application with Claim 1 being in independent form. Claims 19 – 27 have been previously withdrawn from consideration.

By the present amendment, Claim 1 is amended to recite “...the light source device irradiates a plurality of band light beams that exist in a band positioned as blue light in a visual light wavelength range by switching the plurality of band light beams to a field sequential light.” The features recited in amended Claim 1 is fully supported throughout the disclosure as originally filed, for example, see page 9, lines 8 – 18. Therefore, no new subject matter is introduced into the disclosure by way of the present amendment.

Applicant submits that the claims as presently amended are neither anticipated nor obvious over U.S. Patent No. 6,922,583 issued to Perelman et al. Specifically, Perelman fails to disclose or suggest that “...the light source device irradiates a plurality of band light beams that exist in a band positioned as blue light in a visual light wavelength range by switching the plurality of band light beams to a field sequential light...” as recited in amended Claim 1. Therefore, Claims 1, 2 and 5 – 18 are believed to be allowable over the cited prior art references.

CONCLUSION

In view of the foregoing amendments and remarks, it is respectfully submitted that all claims presently pending in the application, namely, Claims 1, 2 and 5 – 18 are believed to be in condition for allowance and patentably distinguishable over the art of record.

If the Examiner should have any questions concerning this communication or feels that an interview would be helpful, the Examiner is requested to call Applicant's undersigned attorney at the number indicated below.

Respectfully submitted,

/Thomas Spinelli/
